LOGNOTE -- Chief, Operations Group, 21 March 1985

2. (Baker) [] dropped by yesterday to tell me of his interest in trying to get into the CT Program and to ask whether FBIS would sponsor him for it. He said he was not interested in a non-FBIS career--he is very happy with FBIS work and his progress to date--but felt that the exposure would not only benefit him but FBIS. Before taking any steps, however, he wanted to know whether spending a year in the CTP (summer '85 to summer '86) would take him out of contention for a field assignment when the next cycle comes around in 1986.

STAT

I told John FBIS would certainly not stand in the way of a bid for the CTP if he can meet its requirements, but that the question of FBIS sponsorship would have to get CSP consideration. I saw no reason why his being in the program would exempt him from consideration for a late 1986 field assignment, since his return from the CTP in the summer of '86 would poise him for a late summer or fall assignment if we thought one appropriate during the next assignment cycle. I suggested he discuss his interest with his supervisors (MOD and DRD) and with C/P&TB to see how realistic his aspirations were and how best to realize them, whether through FBIS sponsorship, or DDS&T sponsorship, or perhaps an application for the DDS&T CTP mooted some time ago. He will.

(cc: D/FBIS, SA/CD, C/DRD, C/MOD, C/P&TB)
